

Radon meter hire

ARPANSA provides radon meters for domestic use on a rental basis. The radon meters are suitable for measuring indoor radon concentration within a house or apartment. The radon meters that ARPANSA supplies are not suitable for occupational health and safety surveys or other professional uses and ARPANSA can provide more suitable equipment for these purposes on request. ARPANSA will despatch radon meters following receipt of:

- a completed agreement form with original signature
- credit card details noting the value of your preferred delivery/collection method (*see over*):
 - \$71.10 - return express post delivery
 - \$50 - personal collection and return to ARPANSA (payment by credit card only)
- a clear photocopy of your driver's licence

As the meters are in high demand, you are required to return the meter to ARPANSA's **Yallambie address** (see below) thirty days following receipt. The meters should be treated with care and returned in the Express Post envelope provided, using the same packaging in which they arrive.

Agreement

I will accept responsibility for one *Airthings Corentium Home meter* when I receive it. I agree to dispatch the meter by **Express Post** to the Australian Radiation Protection and Nuclear Safety Agency **on or before, thirty days after receipt** or to return it in person by that time. I accept that if I fail to return the meter within that time, I may be charged a fee of \$10.00 for each day in excess of that period until the meter is returned. I agree to my credit card as detailed below being debited by an amount of \$71.10 or \$50.00 (whichever is applicable) on the date of dispatch to me. I further agree to pay for necessary repairs or replacement (not exceeding \$400.00) if the meter is damaged or lost. All charges include GST. I understand that, if required, ARPANSA staff will provide limited discussion of the measurements with me.
