Australian Radiation Protection and Nuclear Safety Act 1998
Australian Radiation Protection and Nuclear Safety Regulations 2018
Declaration of low-risk dealings in relation to controlled material

I, Gillian Hirth, CEO of ARPANSA, acting under the Australian Radiation Protection and Nuclear Safety Regulations 2018 (the Regulations) hereby declare under subsection 44(5) that possession of the following controlled material by the Australian Nuclear Science and Technology Organisation (ANSTO) is a low-risk dealing for the purposes of the Act and Regulations.

- The naturally occurring radioactive material present in the building materials of Building 45.

I am satisfied that the controlled material involves naturally occurring radioactive material and that an assessment of the magnitude of individual doses, the number of people exposed and the likelihood that potential exposure will actually occur justifies the dealing being exempt from licensing requirements under the Act.

A handwritten signature in black ink, appearing to read "Gillian Hirth".
