Good afternoon s47E, s22

I hope things are going well? We had a catch up with some representatives from DCCEEW's Hazardous Waste and NTCRS Section late last week. They had checked in with us re licencing and permits for Northern Endeavour NORMs. During our conversation they mentioned that the timeframe for the return of these NORMs may have s47E, s22. Hoping we can catch up to discuss?

Thanks

If I correctly understand the s47C, s22 would apply for a licence through ARPANSA to s47C, s22 and s47C, s22 to meet the requirements of that licence for the storage area only (s47C, s22) containers are stored would be inspected by appropriate authorities to ensure licencing agreements and standard were being met.
