

Nuclear-based science benefiting all Australians

Dr Carl-Magnus Larsson
CEO, ARPANSA
ARPANSA
PO Box 655
MIRANDA NSW 1490

10 November 2014

Dear Carl-Magnus,

Application for a licence to operate a controlled facility: ANSTO Interim Waste Store (IWS)

Further to your decision to approve the construction of the IWS facility and the issue of licence F0279, ANSTO has prepared an application under section 32(1) of the ARPANS Act for the purpose of operating this facility. We bring to your attention that this application also specifically addresses the issues you raised in the construction licence Statement of Reasons document.

The submission has been endorsed by the ANSTO Safety Assurance Committee (SAC).

The required licence application fee of \$204,638 has been transferred to the ARPANSA Official Departmental Account as per your invoice. (Tax invoice number ARI269917).

ANSTO has been granted funding approval for this project and has the resources to manage the project and the risks appropriately.

The (link below) will direct you and your staff to this application along with the supporting documents. It will be available for download until 12 November 2014.
