

Transport of radioactive waste

Validation of certificate checklist

An applicant seeking validation of a certificate should note that ARPANSA will follow the requirements of para. 840 of RPS C-2 (Rev. 1) (2019) which states that:

“Multilateral approval may be by validation of the original certificate issued by the competent authority of the country of origin of the design or shipment. Such validation may take the form of an endorsement on the original certificate or the issuance of a separate endorsement, annex, supplement, etc., by the competent authority of the country through or into which the shipment is made.”

This checklist should be included with your application.

Information required	Tick if included
1. Description of the certificate including the revision of the certificate and the original competent authority	<input type="checkbox"/>
2. In case of a certificate in a language other than English, availability of an English translation of the certificate	<input type="checkbox"/>
3. Description of any changes to the Safety Analysis Report (for design certificate) since the certificate was issued	<input type="checkbox"/>
4. A copy of the Safety Analysis Report (in English)	<input type="checkbox"/>
