

Magnetic field meter hire

ARPANSA provides magnetic field meters for domestic use. The calibrated meters are suitable for determining 50 Hz (mains electricity) magnetic fields in and around homes. This hire service is not approved for occupational health and safety surveys or other professional use. **WARNING: The magnetic field meter is not suitable for the measurement of radiofrequency fields emitted from telecommunications sources such as mobile phones, mobile phone towers, wi-fi, smart meters, etc.** ARPANSA will only dispatch meters following receipt of:

- an agreement form with original signature (faxed signatures are not acceptable)
- completed credit card payment information noting the value of your preferred delivery/collection method (*see over*):
 - \$71.10 - return express post delivery
 - \$50 - personal collection and return to ARPANSA (payment by credit card only)
- a clear photocopy of your driver's licence

As the meters are in high demand, you are required to return the meter to ARPANSA's **Yallambie address** (see below) on the third day following receipt. The meters should be treated with care and returned in the Express Post envelope provided, using the same packaging in which they arrive.

Agreement

I will accept responsibility for one *Sypris* or *Emdex* magnetic field meter when I receive it. I agree to dispatch the meter by **Express Post** to the Australian Radiation Protection and Nuclear Safety Agency **on or before, the third full day after receipt** or to return it in person by that time. I accept that if I fail to return the meter within that time, I may be charged a fee of \$10.00 for each day in excess of that period until the meter is returned. I agree to my credit card as detailed below being debited by an amount of \$71.10 or \$50.00 (whichever is applicable) on the date of dispatch to me. I further agree to pay for necessary repairs or replacement (not exceeding \$700.00) if the meter is damaged or lost. All charges include GST. I understand that, if required, ARPANSA staff will provide limited discussion of the measurements with me.
